

Safety Cards for Your Family

1. Don't drive into water covered roads!
Less than 2 ft. of water can float your car!
2. Keep children away from swollen creeks & drainages. They can be easily swept away.
3. If you can **hear** thunder, you can be **struck** by lightning! Stay off corded phones, away from sinks & showers & don't use appliances. Stay inside for at least a half hour after the thunder stops.
4. Get a NOAA weather radio for your home. They're like smoke detectors for bad weather.
5. Get safety information you need at :
